

Invitation to the 1st International SOFiSTiK Workshop 2004

SOFiSTiK
AKTIENGESELLSCHAFT

Dear customers,

For many years we've successfully conducted practical Workshops in Germany on a regular base and due to high demand we would like to invite you to our first practice oriented international

SOFiSTiK Workshop on Nov, 18th 2004 in BUDAPEST

The aim of the workshop is to provide you with a lot of tips and tricks in using the SOFiSTiK software for your daily engineering tasks. We are sure, that after attending the workshop, your benefit of working with SOFiSTiK will be even more evident. The other essential aim is that this workshop should clearly show how easy the work with SOFiSTiK software can be.

For this reason we have prepared this one day workshop in close co-operation with our local partners according the international SOFiSTiK customer requirements. In the first part of the workshop we will explain with a complex example of a high-rise building the complete SOFiSTiK workflow using SOFiPLUS, WINAQUA, WinMAXIMA, ASE, DYNA, BEMESS, AQB, WinGRAF and URSULA. The second part will be dedicated to Bridge Engineering, showing and explaining on a real example the modules SOFiPLUS, CADiNP, TENDON, SOFiLOAD, ELSE, CSM and AQB. Both sessions will have enough time to solve your questions.

The last part of the day will be open for discussion as a "Question and Answer session". For this reason we will have a lot of our SOFiSTiK experts as presenter of this session. For more information about the workshop, please take a look at the preliminary agenda of the workshop on page 3 of this document.

To welcome our new neighbours in Europe, the location decision was made on Budapest, which is very easy to reach from all parts of Europe.

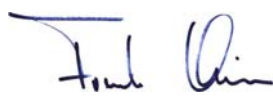

Event location: Radisson SAS Béke Hotel, Budapest
Date: 18. November 2004
Time: 09:30 – 18:00
Event fee: 150,- €/1st person of a company
100,- €/any additional person of a company
